DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-2, 5-6, and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Netti (U.S. 4,330,120). Please refer to paragraph 2 of the office action dated April 20, 2005. With regards to claim 13, the limitations are substantially similar in scope to the limitations of the above referenced claims.

Claim Rejections - 35 USC § 103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 3-4, 7-12 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Netti in view of Jackson, Jr. (U.S. 3,759,510). Please refer to paragraph 4 of the above cited office action for discussion of claims 3-4 and newly presented claim 14, which is similar in scope to previously rejected claims 3 and 4. With reference to claim 7, Netti teaches the claimed device except for closed-ended finger receiving members. In view of the notoriously old teachings of providing closed-ended finger loops in weighted gloves, as evidenced by Jackson, Jr., it would have been obvious to provide closed-ended finger receiving members in order to protect the fingertips. With respect to claims 8-10, Netti teaches a plurality of securement straps (37) extending around the weight. Furthermore, Netti teaches the forearm weights lying

between the glove section and one of the securement straps. With respect to claim 11, the specific length chosen for the forearm section is considered a matter of obvious design choice, absent criticality or unexpected results. Furthermore, length is relative to the specific user, depending on the relative lengths of two individuals' arms. A glove fitted for a short-limbed person would not encompass the entire forearm of a user with much longer limbs. With respect to claim 12, Netti teaches fastening members comprising adjustable straps (37).

Response to Arguments

5. Applicant's arguments filed 07/12/2005 have been fully considered but they are not persuasive. Examiner points out that the weight may be removed from the glove section thereby resulting in an 'unweighted' glove section. Examiner further points out straps taught by Netti. With regards to length of the forearm section, see discussion above. With respect to arguments drawn towards the combination of Netti and Jackson, Jr., Jackson, Jr. teaches the desirability of pellet weights thus providing motivation for the proposed combination.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3764

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
